

STRIPS A, B & C  
CAN BE CUT FROM  
THE BOTTOM SIDE  
OF THE CASE

- STRIP C IS A COMBINATION OF A & B
- SUPERIMPOSE ON A & B AND GLUE THE SHADED AREA (= AREA OF A) DIRECTLY OVER STRIP A ONLY

### HOW TO USE:

- PULL UP THE HINGE FLAP SO THAT IT IS PERPENDICULAR TO THE BASE
- WITH THE PIVOT POINT PLACED DIRECTLY OVER THE VERTEX, ALIGN THE CUT EDGES OF THE BASE WITH THE ANGLE LINES
- THE LINE JOINING THE INTERSECTION POINT OF C & B AND THE VERTEX WILL GIVE THE ANGLE BISECTOR

### HINGE FLAP
